

# JOB DESCRIPTION

**JOB TITLE** Journeyman Electrician

**REPORTS TO** Client Service Manager or Foreman

## JOB OVERVIEW

The journeyman electrician is responsible for troubleshooting, building, installing, and maintaining various industrial electrical work in a variety of conditions. This will include some automation work, operating equipment, or other assigned duties. All employees must act with urgency, accountability, and flexibility to ensure Wescom's core values are always followed.

### RESPONSIBILITIES AND DUTIES

- Install cables, wires, cable tray, electrical panels, equipment, and other electrical items on new oil well pads, upgrade existing well pads, and maintain existing sites.
- Perform troubleshooting and maintenance calls using testers, experience, and best practices to ensure locations are performing as directed by the client.
- Install control wiring as directed with Industrial Control Technicians.
- Plan workload, communicate and direct such work to other electricians and apprentices on locations.
- Lead morning Job Site Safety Analysis meetings and act as Person in Charge on locations.
- Train, watch, and perform quality control on apprentice work.
- Comply with all state, federal, and tribal regulations related to licensing requirements for electrical.
- Communicate to employees, management, and clients with cheerfulness and a willingness to help.
- Be an active safety role model and follow all safety requirements.
- Live Wescom core values of Building Customers for Life, Serving with Integrity, Empowering People, and Creating Opportunities.

## QUALIFICATIONS

- High school diploma.
- Journeyman Electrical License in the state to be operated.
- Ability to lift 50+ lbs. and work in a variety of construction settings.
- Ability to reach, stretch, and pull cables while bending, reaching, and twisting.
- Willingness and desire to teach others.
- Experience in industrial settings of at least 2 years with a preference for electrical, instrumentation, automation, or controls.

## SALARY

\$30.00 / hour +

## HOURS

Expect 45 hours a week with a start time of 7:00 AM to 5:00 PM M-F with occasional overtime as needed.

## CAREER PATH

The Journeyman Electricians report to the Client Services Managers or Foreman of their area. There are several career paths available to the right individual including moving up to foreman, Client Services Manager, over to the Industrial Controls team, safety, or other operations. Wescom believes in people and is always willing to train the right person.
